# A Fully Integrated Textile & Apparel Powerhouse.

Sky Group is built on a single vision — "Farm to Fashion." We control every stage of the value chain, from Farming, Ginning and Spinning through Knitting, Processing, Printing and Garmenting, transforming raw cotton into finished fashion products under one roof. With complete backward and forward integration, we deliver end-to-end textile solutions with quality, consistency and efficiency at every step.

GARMENTING

# We operate on the Professional 4 M's.

The four foundations of corporate excellence — applied across every stage of our integrated value chain.

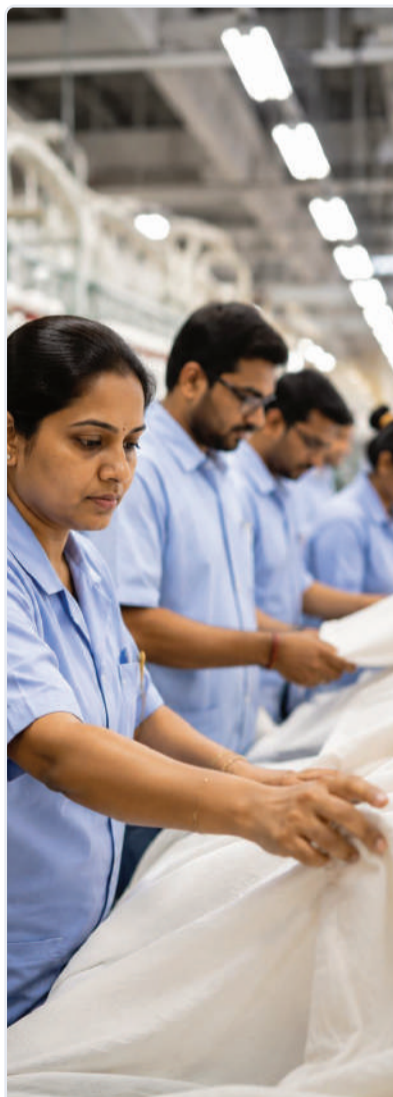

## MATERIAL

Complete control over raw-material sourcing — superior cotton & fibres, 100% compact yarns, and the best dyes & chemicals. Consistent quality, better traceability and cost-effective solutions through vertical integration.

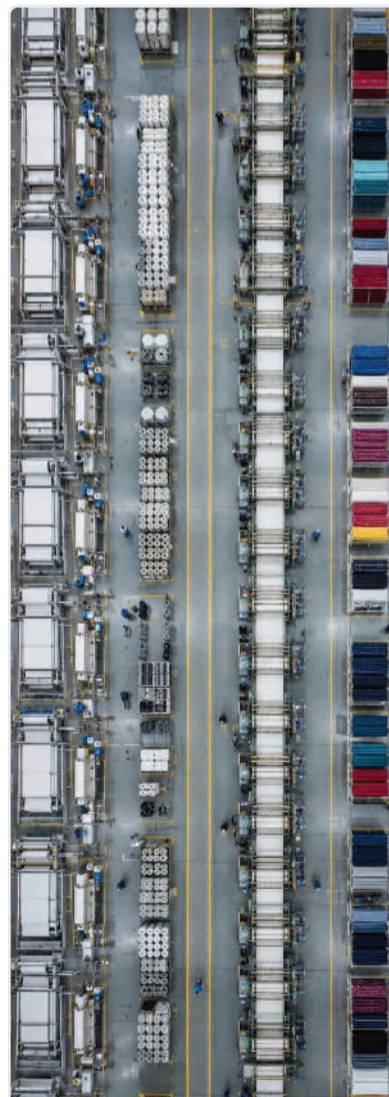

## MACHINES

State-of-the-art infrastructure with the most advanced, latest machinery — from fabric manufacturing to garment production. High production capacity backed by modern technology and automation.

## MANPOWER

Experienced professionals and a skilled workforce across the entire textile value chain. Strong operational expertise ensuring quality execution and timely delivery, order after order.

## MANAGEMENT & METHOD

Standardized processes, stringent quality controls and efficient production systems. Continuous improvement driven by innovation and industry best practices. Customer Oriented Management

# INDIA'S FIRST AND ONLY PLANT HAVING CAPACITIES 50% ON SOFT DYEING AND 50% ON CONTINUOUS DYEING.

A modern campus engineered for vertically integrated textile production.

Knitting · Dyeing · Printing · Finishing — all under one roof, equipped throughout with advanced European machinery.

**KNITTING**

53 MACHINES

**600** TONS / MONTH
